

Company addresses

Every company must have a Registered Office with a physical and postal address in Niue.

The physical address of a Registered Office need not be at the company's place of business, nor in the same place. It must be at a physical location not a postal centre or document exchange. These addresses are first notified to the Registrar on the application for incorporation. The postal address can either be a physical or postal address.

If a company wishes to change its Registered Office address (physical and/or postal), the change, and the date upon which it is to take effect, must be notified to the Registrar. The notice must be registered at least five working days before the change takes effect.
